Call to Order: Chairman Green called the meeting to order at 1:30.

Roll Call: Eleven board members were present at the time of roll call. Marjorie McKeithen entered after the meeting began for a total of 12 members.

APPROVAL OF MINUTES:

A motion was made by Mr. Montelepre, seconded by Mayor Gerald Johnson to approve the February 25, 2004 Commerce & Industry board meeting minutes.

Motion carried unanimously.

Chairman Green asked Leonard Kleinpeter to inform the board of the future status of the Commerce & Industry Board. Mr. Kleinpeter indicated that though changes will be made, the Governor is very comfortable with the existing board and board members. Therefore, it was not an immediate priority to make changes. He also indicated that this will probably be the last board meeting for some members and voiced both his appreciation and Governor Blanco's appreciation to all of the board members for time served.

Chairman Green asked the board to add an additional new Enterprise Zone application to the agenda.

A motion was made by Mr. Murano, seconded by Mr. Kleinpeter to add Parc England Hotel, LLC #20020335 to the agenda. Motion carried unanimously.

QUALITY JOBS

Ed Baker presented one contract cancellation; Broadwing Telecommunications, Contract #2000-0101. The company request cancellation because they have ceased operation in the state and there are no longer any employees in the state of Louisiana after being purchased by Cincinnati Bell.

A motion was made by Mr. Cornett, seconded by Mr. Vickers to approve the contract cancellation. Motion carried unanimously.

Ed baker presented three new Quality Jobs applications. Mr. Friend asked if there was a controversy between 1844, LLC and Seismic Exchange, Inc. since a point was made for the Quality Jobs benefits to go to SEI. Mr. Baker indicated that it is quite common for one company to own the building and another business association to own the actual business and the employees.

A motion was made by Mr. Vickers, seconded by Mr. Friend to approve all of the new Quality Jobs applications. Motion carried unanimously.

RESTORATION TAX ABATEMENT

Ed Baker presented one new application for WNO that was deferred at the February 25, 2004 board meeting because the board was concerned that the owners of the company may be affiliated with gaming. A representative for WNO, Mr. Mike Mancuso was present to lend clarification to the situation. He informed the board that one of the silent partners/owners of the hotel are not involved in the hotel operations. The owner, Mr. Renfro owns 25% of a company that operates video poker machines, but that company doesn't have anything to do with the hotel. The board members were concerned that gaming could be added to the hotel later. Mr. Mancuso indicated that there were no video poker machines in the hotel presently, and no plans to add them. Ms. McKeithen stated that she thought the last representative told the board that the hotel was affiliated with Harrah's in some way. Mr. Mancuso indicated that the only connection this owner has to Harrah's would be the selling of some property in Lake Charles to Harrah's. Darryl Manning informed the board that the rules currently prohibit granting tax incentives to companies involved in gaming activities or that provide support to gaming activities. It was the perception of the board that WNO is not supporting gaming operations or affiliated with gaming activities.

A motion was made by Mr. Murano, seconded by Mr. Rustin Johnson to approve the WNO application. Ms. McKeithen amended the motion by requesting that any changes made with regards to gaming, be brought before the board immediately. Motion carried unanimously.

Ed Baker presented the remaining new Restoration Tax Abatement applications.

A motion was made by Mr. Rustin Johnson, seconded by Mr. Murano to approve the remaining new Restoration Tax Abatement applications. Motion carried unanimously.

ENTERPRISE ZONE

Marylyn Friedkin presented a new application #20020335, Parc England Hotel, LLC.

A motion was made by Chairman Green, seconded by Mr. Murano, to approve the new contract. Motion carried unanimously.

Staff recommends approval of the following NEW APPLICATION:

Marylyn Friedkin presented contract #2001-0291, Roofing Supply, Inc. for cancellation. The hiring requirements were not met.

A motion was made by Mr. Rustin Johnson, seconded by Mr. Murano to approve the contract cancellation. Motion carried unanimously.

Marylyn Friedkin presented thirty-six new Enterprise Zone applications.

Both Mr. Green and Mr. Murano had questions concerning the relationship between gaming and Food N Fun, Inc. Dare Powers, representative for Food N Fun, Inc., informed the board, that Food N Fun, Inc. operates convenience/subway stores in the state of Louisiana. There are video poker machines in some of the locations, but the applications in question are for parishes that do not allow gaming. Ms. Powers also reminded the board of a similar situation approved by the board at the December board meeting. Mr. Montelepre pointed out that Food N Fun, Inc. operates gambling in Louisiana and Food N Fun, Inc. is applying for the Enterprise Zone. Darryl Manning stated that the locations in particular do not have gaming activities. Darryl Manning also read general rule § 301.

A.1. Any entity who has received or applied for a license to conduct gaming or is owned, controlled or managed by a company that has received or applied for a license to conduct gaming shall be ineligible to receive a contract for any tax exemption, credit, rebate or other benefit granted by the Board of Commerce and Industry.

3. An entity who is owned, controlled or managed by a company that has received or applied for a license to conduct gaming may apply for a contract for a tax exemption, credit, rebate or other benefit granted by the board of Commerce and Industry if the business operated by that entity is not related to and does not provide support to the gaming activity. The burden shall be on the applicant to prove that the business is not related to and does not provide support to the gaming activity. If the Board determines that the entity has provided sufficient proof that the entity is not related to and does not provide support to the gaming activity the Board may, in its discretion, grant a contract for any tax exemption, credit, rebate or other benefit.

Chairman Green asked if each one of the stores were separate corporations. He also stated that if New Iberia all of a sudden approved video poker, then each store would have to apply for a license to add video poker and at that time, the application would be rejected. Copeland's was used as an example. Copeland's is affiliated with gaming but also owns restaurants that do not support gaming. Ms. McKeithen stated that she didn't realize they were separate entities. She also suggested if the applications are approved, and the contracts change in any way, the board is to be notified immediately.

A motion was made by Mr. Rustin Johnson, seconded by Ms. McKeithen to approve all of the new Enterprise Zone applications with the stipulation that should the contracts for Food N Fun, Inc. change, the board is notified immediately. Motion carried unanimously.

INDUSTRIAL TAX EXEMPTION

John Jernigan presented eighty new applications. Clyde Gisclair, St. Charles Tax Assessor spoke against Entergy. The assessor alleges that Entergy is not paying their fair share of property taxes to the parish and to the state. Mr. Gisclair told the board, that when you give exemptions, somebody has to pay...somebody has to make up the difference. Gisclair said Entergy tells the state board the project is expanding and then tells the Louisiana Tax Commission they are making repairs which the company then writes off. Gisclair also stated that the company was built in 1973, had been there for 23 years before coming on the rolls in 1996. Now, they are requesting an exemption to improve the plant, which they will write off. Gisclair pointed out to the board that also in attendance are members of the St. Charles Parish School Board and council members that also feel as he does.

Bill Edelman, legal council for St. Charles Parish Tax Assessor's office also addressed the Board concerning the issue of whether the project is an expansion and eligible for tax relief, or a repair, which may not be eligible. Edelman acknowledged that the upgrades made are required by the Nuclear Regulatory Commission, but also noted that the tax commission representatives are being told that the plant is old, obsolete and merits a significant reduction in the fair market value. Edelman also told the board that the \$33 million that Entergy is seeking an exemption for will cost the residents and taxpayers of St. Charles parish almost \$6 billion dollars. Edelman, also in agreement with Gisclair, feels that somebody has to pay it and feels that Entergy should pay the bill. For Entergy to apply for a tax exemption based on an improvement or an addition to a plant but tell the tax commission something different is inconsistent. Edelman suggested a closer examination of the application to determine exactly what is repair and what are improvements.

Chairman Green asked the Assessor who he suggests the application be sent back to. Gisclair suggested the staff take a closer look at the situation. Mr. Murano asked Gisclair how much industry pays in property taxes in his parish. "They pay 94%" Gisclair said. Murano said that the state is lucky that industry is willing to pay 94% of a community's tax base, because many states do not. Mr. Rustin Johnson asked Mr. Gisclair if he has the same argument against any other refinery that may come into the parish or just Entergy. Mr. Gisclair indicated that he will argue the same point against any other company. Based on that point, Mr. Rustin Johnson made a motion. The question was asked if John Jernigan has looked into the \$33 million exemption request and if the application qualifies. John indicated that he has looked at the application and the 3-4 pages of items purchased, but those pages don't tell him the details.

Due to the board members speaking at the same time and the lack of two microphones, the continued discussion concerning deferral of the Entergy application was not clear. However, members of the board were in agreement to defer the Entergy application until John Jernigan can review the application further.

Bob Adair, Entergy representative reminded the board that they have done this for several years. He also informed the board that Entergy is heavily, heavily regulated by people that look at their books. "The federal Nuclear Regulatory Commission has some very serious requirements. So does the Louisiana Public Service Commission that looks at our books quite

often and The Nuclear Regulatory Commission”. Mr. Adair assured the board that there is a lot of oversight and that Entergy is always willing to talk.

A motion was made by Mr. Rustin Johnson, seconded by Ms. McKeithen to defer the Entergy application #20020563. Motion carried 7 to 4 in favor of deferral.

John Jernigan asked the board to defer Intralox, Inc.

A motion was made by Mr. Montelepre, seconded by Mayor Johnson to approve deferral of the Intralox, Inc. application. Motion carried unanimously.

Chairman Green commented on Enterprise Gas Processing, LLC. He commented that there have been some problems in the past with gas separation. John’s response was that this is a gas fractionation plant. Chairman Green also stated that quite a few of the employees and a number of the applications being voted on are related to the General Motors application.

A motion was made by Mr. Murano, seconded by Kleinpeter to approve all of the new Industrial Tax Exemption applications except Entergy Louisiana, Inc. #20020563 and Intralox, Inc. #20020565. Motion carried unanimously.

A motion was made by Mr. Friend, seconded by Mayor Johnson to approve deferral of Chemtech Chemical Services, LLC. Motion carried unanimously.

Mr. Kleinpeter asked if Morton Salt was manufacturing or mining. He also asked if there was a way to make periodic inspections. Chairman Green reminded the board of a similar situation where a company had both manufacturing and mining. John Jerneing told the board that Carey Salt has the same situation. There is a conveyor belt up to the manufacturing.

A motion was made by Mr. Montelepre, seconded by Mr. Vickers to approve the remaining new miscellaneous capital addition applications. Motion carried unanimously.
